Do Karnataka FRUs provide Quality 24x7 EmOC services

Arupa Das, Vijayashree HY, N. Devadasan

Institute of Public Health, Bengaluru

Introduction

Data Source: Sample Registration Survey (SRS)

- Slow pace in reduction of MMR
- FRU plays important role in reducing MMR
- So we studied the effectiveness of FRU in reducing MMR

Objectives

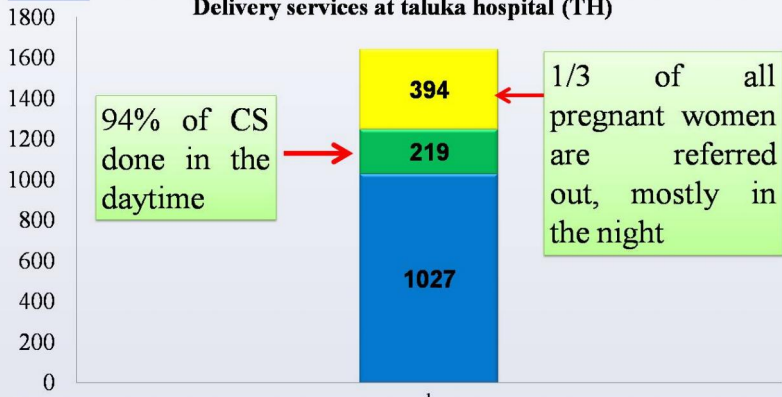

Study supply side reasons for slow pace in reduction of MMR in Karnataka.

Methods

- From existing registers
- Interviews & Focus Group Discussions (FGDs) with stakeholders

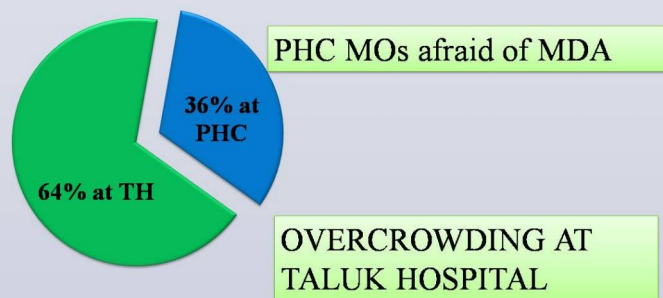

Results

Delivery services at taluka hospital (TH)

Gynecologist sees OP, does camp and perform night duties. Available for only 14 nights out of 180 nights. Team of Gynecologist and anesthetist are available for even less nights.

% of all normal deliveries at PHCs & Taluka Hospital (TH)

Presented on KACH-CON 2012, SNMC, Bagalkot

Discussion

- Deliveries to higher services at level.
- Quality is overcrowdi by other sp
- MDA sho rather than
- More GD EmOC and
