

Publications 2022

UNIVERSITY OF LEEDS

★ = 3 Star Paper ★★ = 4 Star Paper

The image displays a comprehensive grid of scientific publications from 2022, organized into rows and columns. Each tile represents a journal article or a journal cover, featuring the journal's logo, the title of the article, and the names of the authors. The journals included are diverse, ranging from general medical journals like *The Lancet*, *BMJ*, and *Journal of Clinical Pathology* to specialized journals such as *Journal of Translational Medicine*, *Journal of Cellular Biochemistry*, and *Journal of Cellular Biochemistry*. The articles cover a wide range of topics, including cancer research, genomics, clinical trials, and basic science. The grid is visually busy, with many overlapping text elements and logos, creating a rich tapestry of scientific information.
